## DETAILED ACTION

### *Examiners Amendment*

#### *Notice of Non-Compliant Amendment*

1. The amendment to the claims filed on 12/14/2007 does not comply with the requirements of 37 CFR 1.121(c). Claims 3-10 lack the appropriate withdrawn status identifier. A withdrawn claim should have the status identifier withdrawn. (Re: cl 9, a withdrawn claim may have a status identifier of withdrawn-currently amended).

Amendments to the claims filed on or after July 30, 2003 must comply with new 37 CFR 1.121(c) which states:

(c) *Claims*. Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: (Original), (Currently amended), (Canceled), (Withdrawn), (Previously presented), (New), and (Not entered).

(1) *Claim listing*. All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of “canceled” or “not entered” may be aggregated into one statement (e.g., Claims 1–5 (canceled)). The claim listing shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.

(2) *When claim text with markings is required*. All claims being currently amended in an amendment paper shall be presented in the claim listing, indicate a status of “currently amended,” and be submitted with markings to indicate the changes that have been made relative to the immediate prior version of the claims. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. Only claims having the status of “currently amended,” or “withdrawn” if also being amended, shall include markings. If a withdrawn claim is currently amended, its status in the claim listing may be identified as “withdrawn—currently amended.”

Art Unit: 3653

(3) *When claim text in clean version is required.* The text of all pending claims not being currently amended shall be presented in the claim listing in clean version, *i.e.*, without any markings in the presentation of text. The presentation of a clean version of any claim having the status of “original,” “withdrawn” or “previously presented” will constitute an assertion that it has not been changed relative to the immediate prior version, except to omit markings that may have been present in the immediate prior version of the claims of the status of “withdrawn” or “previously presented.” Any claim added by amendment must be indicated with the status of “new” and presented in clean version, *i.e.*, without any underlining.

(4) *When claim text shall not be presented; canceling a claim.*

(i) No claim text shall be presented for any claim in the claim listing with the status of “canceled” or “not entered.”

(ii) Cancellation of a claim shall be effected by an instruction to cancel a particular claim number. Identifying the status of a claim in the claim listing as “canceled” will constitute an instruction to cancel the claim.

(5) *Reinstatement of previously canceled claim.* A claim which was previously canceled may be reinstated only by adding the claim as a “new” claim with a new claim number.

#### ***Election/Restriction***

2. Applicant’s removal of the cash dispenser takes claims 1-11 and 22-27 out of the article dispensing art. Newly amended claims 1-11 and 22-27 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

II. Claims 12-21 drawn to a cash dispensing apparatus featuring a removable portable dispensing cassette, classified in class 221, subclass 186.

IV. Claims 1-11 and 22-27 drawn to a secure deposit accepting system, distributed control of plural dispensing units, classified in class 109, subclass 25.

Applicant’s removal of the cash dispenser takes claims 1-11 and 22-27 out of the article dispensing art.

3. Inventions II and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as dispensing cash or moving conveying documents to an alternate dispensing port. See MPEP § 806.05(d). See

Art Unit: 3653

MPEP § 806.05(d). Invention IV has separate utility such as serving as a secure cash drop safe in a retail store. See MPEP § 806.05(d).

4. Since applicant has received an action on the merits for the originally presented invention, the previously examined invention has been elected by original presentation for prosecution on the merits. Accordingly, claims 1-11, 22-27 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

***Examiners Amendment***

5. This application is in condition for allowance except for the incorrect status identifier and the presence of claims 1-11 and 22-27 presence of claims 28-32 non-elected without traverse. Accordingly, claims 1-11 and 22-27 have been cancelled

***Allowable Subject Matter***

6. Claims 12-21 are allowed.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

*Conclusion*

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
